PLANNING APPLICATION SCC Ref.2008/878

The Sub-Committee appointed to consider this matter met on the 24th July when there were present Mr. J. A. Percival (Chairman), and Messrs. D. P. Blackman. R. H. Blackmore, G. W. Phillips (in place of Mr. C. T. Larkin), A. J. Smith and T. W. Thomas.

The Sub-Committee noted that the Council had now been formally consulted on the matter by the Surrey County Council, which would determine the Application, and had 28 days from the 14th July to comment thereon.

The Sub-Committee also noted objections to the Application raised by the Burstow Parish Council in a letter to the Tandridge District Council of the 15th July.

After due consideration of the matter it was

RECOMMENDED: That the following comments be made to the Surrey County Council in respect of Application SCC Ref 2008/878 -

[1] this Council consider that the present problems arising from the use of the application site for the storage and treatment of waste materials in a

totally unsuitable location appear to arise from a lack of interest by the planning authorities in the past in what has been taking place on a site on the periphery of the authorities' areas, activities which should not have been allowed to continue, but which have been condoned by the approval of retrospective applications for various activities on the site;

[2] the Council wishes to express it's considerable concern that the present apparent non- conforming uses of much of the Application site, which appear to be contrary to planning legislation, would seem to be the result of inaction by the planning authorities in the past, particularly in so far as possible enforcement action is concerned; and

[3] this Council totally and strongly endorses and supports the objections lodged by the Burstow Parish Council in a letter of the 15th July, 2008, to the Tandridge District Council, and in particular stresses this Council's deep concern that the heavy vehicular traffic which would be engendered by the proposed development would seriously exacerbate present problems in Copthorne arising through the use of Village roads by unsuitable heavy goods vehicles, despite efforts by the appropriate authorities to control such use which have not appeared to be effective, so far, and do not instil any confidence that similar efforts in the future might be more successful.

The Parish Council has the following comments on the Planning Applications shown. Where the word "Support" is shown this indicates that the Parish Council supportsthe grant of planning permission subject to the imposition of appropriate conditions.
